DETAILED ACTION

Acknowledgement of Amendment

The amendment to the instant application was entered on 3 January 2007.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Keyes on 24 January 2007.

The application has been amended as follows:

In the Claims

Claims 8-10 have been canceled.

Election/Restrictions

This application is in condition for allowance except for the presence of claims 8-10 directed to a method of manufacturing a display apparatus non-elected without traverse. Accordingly, claims 8-10 have been cancelled.

Allowable Subject Matter

Claims 1-7 allowed.

The following is an examiner's statement of reasons for allowance:

As to claim 1, the prior art of record fails to teach or reasonably suggest a display apparatus including all the limitations of claim 1, specifically a display apparatus including: an auxiliary wiring disposed between adjacent lower electrodes at the same level as the lower electrodes, an organic layer provided in each pixel including a portion that overlaps at least a portion of the organic layer in an adjacent pixel, an upper electrode covering the organic layer and connected to the auxiliary wiring through one of the connection holes in each pixel, wherein the overlapping portion of the organic layer is positioned above the auxiliary wiring.

Claims 2-7 are allowed for the reasons given for claim 1, and for depending from claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
